Note to Catalog Users

Dear Pacific Coast Shellfish Grower and Allied Members,

Some of you have been involved in the shellfish community for decades and others are fairly new. Either way, I hope you find the contacts and information assembled in this PCSGA Resource Catalog to be an essential part of your days. I often reach for my Catalog to find out whom I should contact about an issue, or where to find certain products and services.

Over the decades, PCSGA has amassed a fabulously diverse and talented community made of shellfish growers and those businesses and entities who support growers through a variety of products and services. This community, combined with our collective inquisitive nature, our willingness to offer assistance to others, and our ability to adapt, has served us well for generations and will allow us to navigate the full suite of challenges that lie ahead.

This Resource Catalog, our sixth edition, highlights PCSGA's Allied Members who are dedicated to the success of shellfish growers. It demonstrates the cohesion within our community and our unified commitment to provide the world with delicious, nutritious shellfish!

We appreciate your membership with PCSGA and your unwavering support of our shellfish community.

Respectfully,

Margaret A. Pilaro
